

SUMMARY

I am a result-oriented Full-Stack Developer with hands on experience of designing, developing, and maintaining web as well as mobile applications. Possesses diverse experience in various programming languages such as HTML5, CSS3, JavaScript, MySQL, etc. Highly skilled at collaborating with team members to design and deliver quality products within deadlines. Furthermore, I have graduated from Wentworth Institute of Technology with a Bachelor's degree focused in Computer Science.

SKILLS

Front End Languages:	HTML5, CSS3, JavaScript, Dart	Back End Languages:	Java, PHP, JSON
Frameworks:	Bootstrap 4, jQuery, React, Flutter	Databases:	MySQL, MongoDB
Project Management:	Bitbucket, Git, Git Bash	Methodologies:	Agile, Scrum, Waterfall
Software's:	Android Studio, Atom, Eclipse, Notepad++, MS SQL Server, MATLAB, Adobe Suite, Visual Studio		

TECHNICAL EXPERIENCE

- Full Stack Developer** Sep 2019 – Present
Infosys | Hartford, Connecticut
 - Designed user-based interactions through effective front-end architecture as per client needs using Agile methodologies.
 - Developed functional and fast-responsive web applications, using HTML5, CSS3, JavaScript, and jQuery.
 - Maintained quality and ensure responsiveness of applications.
 - Developed mobile applications for IOS and Android using Flutter and Dart, ensuring a dynamic and fluid user experience running on Firebase Database.
 - Migrate existing on-prem data to Azure cloud data factory.
 - Converted Informatica data to Spark SQL to be executed in Databricks.
- IT Intern** Sep 2019 – Jan 2019
Kaspersky Lab | Springfield, Massachusetts
 - Implemented HTML5 and CSS3 to convert Frequently Asked Questions Word Document into a functioning website for easy navigation.
 - Deployed Windows 10 Operating Systems using Windows Deployment Services (WDS) and Microsoft Deployment Toolkit (MDT) to desktops and laptops.
 - Updated and maintained Microsoft Deployment Toolkit (MDT) Task Sequence to support UEFI.
- Technology Support Technician** Jan 2018 – Aug 2018
Simmons College | Boston, Massachusetts
 - Provide technical support (in-person walk-up, over the phone, and email) for faculty, staff, and students.
 - Follow Technology tickets, security, and other administrative process and procedures.
 - Have proper technology documentation, by creating and updating knowledge base documentation. Improve searching for content through tagging and association.
 - Technology projects which include: Desktop upgrades, Windows migration, deploying new software, upgrading computer labs.

EDUCATION

- Wentworth Institute of Technology** | Boston, Massachusetts Aug 2015 – May 2019
 Bachelor of Science in Computer Science
 Dean's List Fall 2016, Dean's List Summer 2019
- University of Rhode Island** | South Kingstown, Rhode Island Jun 2014 – Jul 2014
 Bachelor of Engineering in Computer Engineering
 Summer Program in Computer Science, and Robotics

PROJECTS

- The City of Boston CPA Website** | Senior Project Summer 2019
 - Programmed a fully functioning Community Preservation Act website in a team of two.
 - Created a Registration Page, Login Page, User Page, User Profile Page, Form Submission Page as well as Admin Page with the use of HTML5, CSS3, PHP, MySQL, and XAMPP to host on local machine.
- Pass: Personal Assistant** | Mobile Application Development Summer 2016
 - Collaborated in a team of two to design and develop a mobile application for Android using Android Studio and published onto Google Play Store.
 - Pass is an which allows a user to add certain tasks that needs to be completed within a certain time. The app also sends out a notification to remind the user of any tasks that are nearing the deadline.

CERTIFICATES

- Web Development Bootcamp** | Udemy Sep 2020
- React.js Essential Training** | Lynda Jul 2019
